FRONTEND DEVELOPER

ABOUT ME

Hello, I am a web developer, specialized in Javascript and its libraries. I am a fan of new technologies like Web 3.0 and BlockChain. I am evaluated and certified by different educational institutions with an intermediate-advanced English "B2"

EXPERIENCE

I have 2 years of experience as a frontend developer, working in some freelancer projects, as well as projects within communities and personal projects, (you can learn more about them on my website), I have been part of the high performance PLATZI MASTER program, since the year 2020, and where for 6 months I solved problems with software in an environment of agile methodologies.
